FOREWORD

Daylilies can be relied upon for a wealth of bloom and masses of color in practically all types of soil and weather without the fuss and bother of combating insects and disease. In mid-summer, when bloom from other perennials is scarce, daylilies are at their peak. During and after mid-summer vacation neglect, the bright starlike flowers of *hemerocallis* are always there and waiting to greet you. Most reliable of all flowers "The Flower of Character".

Eminent plant breeders have made rapid progress in the development and improvement of *Hemerocallis*. The flowers are as large and beautiful as those of the finest bulb lillies. Established plants of some varieties have flowering scapes (stalks) with as many as fifty buds which open and flower over a two to six week period. Daylilies are now available in a wide range of colors, color patterns, heights and flower shapes. A proper selection of varieties will furnish bloom spring to frost. All varieties have the quality of facing their flowers outward to the light or open when planted near walls, shrubbery, etc.

Daylily uses are many and varied. They are equally at home in the perennial border, rock garden, foreground of shrubbery or evergreen plantings, near pools and along the banks of small streams. They require very little attention and are easy to grow and transplant. Their charm and beauty in the garden is creating many new daylily enthusiasts annually. Try a few this year. They are permanent and will be a pleasure for years.

SUGGESTIONS

The quarterly News Letters and beautiful year-book issued by the *Hemerocallis* Society are worth more than the \$3.50 annual dues. Write Daisy L. Ferrick, Sec'y, The *Hemerocallis* Society, 416 Arter Ave., Topeka, Kansas.

Kodachrome Slide Collections of Daylilies, Roses, Iris, Flower Arrangements, etc., can be rented from Philip Corlis, Box 68, Somerton, Ariz. Daylily collections also from The *Hemerocallis* Society.

1956 INTRODUCTIONS FROM DR. CHARLES E. BRANCH

BABY DREAMS. (Branch 5415.) Beautiful medium sized orange-pink. Sepal edges raised and lighter in color. Soft yellow throat. 30 buds. 3 ft. \$5.00.

CANYON SUN. (Branch 5544.) 5½ inch flowers of Canyon purple. Center of flower is a golden yellow circle over 2 inches in diameter. Unusual and very showy. Semi-evergreen. 3 ft. \$10.00.

COUNTRY LASS. (Branch 5528). Large 5¾ inch flowers with wide petals. Dandelion yellow with purple throat band. Petals ruffled and crimped, sepals recurved. Profuse bloom on multiple branching 34 inch scapes. \$5.00.

DINGER. (Branch 5227.) 5 inch, flame colored, near totem red. Deep yellow throat and mid rib on petals. 30 buds. Ht. 40 inches. \$3.00.

FAIRY TRICKS. (Branch 5204.) Golden yellow 6 inch blossoms with petals near 2 inches wide. 35 buds on fine branched 38 inch scapes \$6.00.

GARDEN ART. (Branch 5226.) Medium sized flowers of deep chrome yellow with burnt orange halo. Petals lightly recurved and have exquisitely ruffled edges. Recurved sepals have crimped edges. Indescribable rare beauty develops in the p.m. sun when the general color changes to cream trimmed with the deep color holding in the edges and ruffles. More than 20 buds on 36 inch scapes. Semi-evergreen. \$5.00.

GAY ROSITA. (Branch 5217.) Medium sized, wide open rose pink (4-G-10 M&P), slightly deeper in color around a small greenish-yellow throat. 25 buds on a low 30 inch scape. Fall del'y. \$6.00.

HAPPY CHANCE. (Branch 5409.) Light lemon yellow with ruffled petals and heavy texture. 20 blossoms on a low 26 inch scape. \$5.00.

MAMMA DOLL. (Branch 5219.) Large 6 inch yellow with 1½ inch wide petals and clover leaf design halo. For a real large flower, this variety is unusual in abundance of bloom, bearing 50 or more blossoms on each scape when established. Also very fragrant. Ht. 38 inches. \$10.00.

MINX. (Branch 5546.) Hyacinth red with light mid-stripe and red-purple spot on petals. Gold throat. Profuse bloom on multiple branching. 3 ft. \$4.00.

MOLLIE. (Branch 5543.) Large flowered totem red. Prominent yellow-green throat, surrounded by darker shading. 30 buds. Ht. 39 inches. \$4.00.

MOMENTOUS. (Branch 5550.) Extra large deep chrome yellow flowers with an 8 inch spread and petals 1½ inches wide. With excellent branching each scape bears 40 of these giant, fragrant, sun resisting flowers that remain open evenings. Reblooms in early Fall here when established. Hybridizers need this one. Ht. 34 inches. \$12.00.

OKAY. (Branch 5535.) 5 inch flowers of salmon pink gradually changing to orange in the throat. Unusual in perfection of form and finish. 3 ft. \$8.00.

OZARK LULLABY. (Branch 5203.) Large chrome lemon (9-K-2 M&P) flowers. Wide petals and wide recurved sepals. Good bloomer on excellently branched 38 inch scapes. Semi-evergreen. \$5.00.

PARTY ARRAY. (Branch 5225.) Very, very striking and showy is this 5 inch red with light edged petals and white bordered sepals. 25 buds on good branching. Ht. 42 inches. \$6.00.

PINARD. (Branch 5223.) Medium sized, round full flowers of pinard yellow with a pink underglow. Ht. 34 inches. \$3.00.

PINK BLUSH. (Branch 5406.) This exceptionally beautiful medium sized pink has deeper veining and is trimmed with white edging and mid-rib. Soft yellow throat. 24 buds. Ht. 4 ft. \$10.00.

PRESTO. (Branch 5222.) Fragrant 5 inch yellow (9-L-4 M&P) with wide, very ruffled petals. Low 28 inch scape. Semi-evergreen. \$3.00.

RED SCAMP. (Branch 5405.) A tall growing, profuse blooming rich red for the back of the border. Darker shading around a golden yellow throat. 40 buds on excellent branching. Ht. 4 ft. \$5.00.

RITA MAE. (Branch 5414.) 5½ inch flowers of pale pink with a slight yellow influence known as peach bloom pink. Glistening sheen and a neat halo that is not conspicuous. 20 buds, height 3 ft. \$10.00.

SWANK. (Branch 5524.) Flat open, large 5½ inch blossoms in a gorgeous shade of raspberry red. Very showy. 15 buds. 3 ft. \$10.00.

TEXAS STARS. (Branch 5221.) All segments of this fragrant pale yellow are recurved. The 5 inch blossoms have heavy substance, green throat and crimped edges on petals. A mid-season must-have. Very fine. 25 buds. Ht. 40 inches. Semi-evergreen. \$4.00.

VELVET TOUCH. (Branch 5401.) Cardinal red velvet with yellow throat. 25 or more 5 inch flowers on a low 32 inch scape. Semi-evergreen. \$4.00.

VIVA. (Branch 5224.) Rich yellow, a shade deeper than dandelion yellow with green in the base of throat. A stand-out in flower form. The crimp edged petals are 1¾ inches wide and almost circular although flower spread is a medium 4½ inches. Sepals strongly recurve and all segments have very heavy substance. Extra beauty compensates for lack of profuse bloom. Remains open evenings. Ht. 3½ ft. Semi-evergreen. \$6.00.

YUCATAN. (Branch 5542.) Light brown (12-L-9 M&P) 4 inch flowers with a conspicuous blackish purple halo on petals and sepals. 20 buds. 3 ft. \$4.00.

NOTE: Dr. Charles E. Branch is located in Piper City, Illinois, about 95 miles from Chicago. Hemerocallis developed in that region can be depended upon for hardiness. His "Fancywork" introduced in 1955 has the greatest weather resistant flower, sun, wind or rain, of any in our experience

DILL 1956 INTRODUCTIONS

DELL ROSE. (Dill 48-10.) Medium sized rose pink with cartreuse throat. Fine sun resistance and remains open evenings. 4 to 5 weeks bloom when established. Evergreen. \$4.00.

HARDINESS LINE: On a U. S. Map draw a line from the Northwest tip of the State of Oklahoma to Cleveland, Ohio and from Cleveland to Boston, Mass. Some varieties, usually with evergreen foliage, suffer injury and sometimes winter kill North of this line.

EVERGREEN refers to the foliage of varieties that remain evergreen throughout the winter in the far South. This class is less hardy North. North of the "Hardiness Line" they require good drainage Spring planting and winter mulching.

SPRING OR SUMMER TRANSPLANTING is recommended in localities North of the "Hardiness Line".

FIRST YEAR RESULTS: Early blooming varieties planted in Spring may fail to bloom until the following Spring. Do not judge any variety the first year as the performance with respect to flower size, color, plant height and branching are all below par.

PLANT DAYLILIES with bleached line on foliage at ground level, or with root crown approximately 1½ inches below surface.

MULCHING: A first winter mulch is desirable. The purpose is to protect the crown and the top soil a few inches around it from winter and early Spring thawing. Do not use soggy material. A nest of excelsior is good.

GUARANTEE: We use care to keep our plants true to name and are willing to replace, on proper proof, any found to be otherwise, but it is mutually agreed that in no case shall we be liable for more than the original cost.

MAIL ORDERS: On orders under \$3.00 please add 25c for packing and shipping. Missouri customers include sales tax.

PLANTS ARE SENT parcelpost post paid. Orders over \$5 are sent "Special Handling" to insure passenger train transit.
